Foreign Office familiar US formula for meeting problems of Cuba's expulsion from PAHO in accordance Resolution VI of Eight NT's but cannot agree this solution feasible. Believes question of complying with Resolution VI must be faced squarely. However, after study Foreign Office concludes following: (1) Relationship of PAHO to WHO is same as that of OAS to UN and therefore if Cuba can be expelled from OAS despite its links with UN, it can be expelled from PAHO despite latter's relationship WHO; (2) Expulsion Cuba from PAHO would not prejudice regional health work since most of work this field affecting Cuba done through WHO and latter provides most of financing.

Foreign Office adds that its OAS representative familiar this stand and prepared discuss with other representatives.
